Therapist**

Level 3 Award in Education and Training

Developmental Play Specialist

Course Details

This training is an accredited Level 3 Diploma which upon completion enables you to practice as a Developmental Play Practitioner for babies aged 0-1 years and their parents. This training encompasses Carly's years of experience working as a Specialist Paediatric Occupational Therapist with babies. It covers everything you need to know to support a baby's physical, sensory, cognitive, emotional and social development through simple, but powerful play, and in providing these play spaces, empowering parents to take more play home with them.

Course

Overview

Module One: Introduction to Play in the First 1001 Days and Beyond

Module Two: Understanding Infant Developmental Play in the First Year

Module Three: Baby Developmental Play Gym: OT approved Play Activities for Infants ages 0-1 including infants with SEND

Module Four: Facilitating Groups as a Professional Developmental Play Practitioner

Course

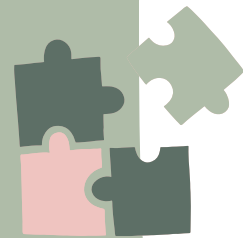

Objectives

Learn the depths of play for the first 1001 days and beyond and the power of creating loving playful interaction through co-regulation and co-occupation. Understanding Developmental Play its benefits for babies aged 0-1 and your role as an Infant Developmental Play Practitioner in creating playful spaces that support the vital nature of play and playful interaction for a baby's brain.

Discover the importance of nurturing young nervous systems when engaging in infant play honouring sensory states and developing sensory systems, whilst providing sensory appropriate play for infants. Understand and apply knowledge of sensory and motor developmental skills in infants and the significance of Mini Milestones and Transverse and Upright Positions for Play amongst Stages of Play, Schematic Play and the EYFS for 0-1 year-olds.

Become competent in practising a variety of Paediatric Occupational Therapist Approved Developmental Play activities for infants ages 0-1 years. Master how to structure and set up groups, 1-1s and/or therapy sessions to deliver developmentally appropriate sensory play for infants age 0-1 and their parents/caregivers. Including infants with Special Educational Needs and Disabilities.

Learn, understand and apply the key components for holding space and facilitating successful inclusive play spaces for parents and babies, including health & safety and social justice. Discover marketing techniques to successfully attract parents and infants to your services.

A passion for play, and supporting child development for lifelong outcomes for children, as well as the family unit.

A background working with children is desirable but not essential as this course gives you a deeper understanding of child development and play

Students must hold GCSEs or equivalent level 2 qualifications or higher (A levels or Degree)

Access to a lap top or desktop computer, internet, and comfortable learning environment

Upon completion, appropriate insurances in place to deliver sessions with parents and babies

Study Requirements

This is an online, self paced training course which can take you as little as 8 weeks, or as long as 2 years - there is no time limit to complete.

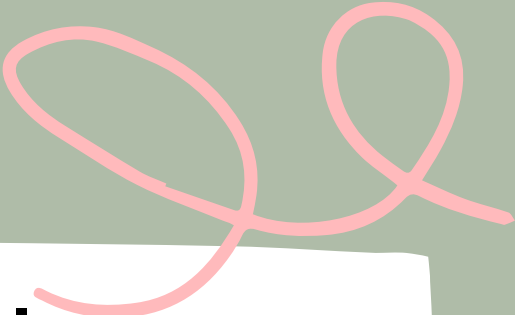

You are required to complete end of module multiple choice question assessments, as well as two written assignments. There is no word count for these but you are required to demonstrate your understanding and knowledge.

To receive your qualification you will be required to complete a case study with 2-4 babies ages 0-1, submitting your reflection of the session, your teaching plan (including considerations of risk) and feedback from the parent/caregiver as well as a short 5min video clip

Course Completion

This training is a recognised Level 3 Diploma worth 15 CPD points in the Education system. It meets the learning needs of a vast array of professionals. It has been written by an Occupational Therapist so can easily be integrated within a therapy practice using your skills as a therapist. It also suits those working in child care or early years settings, or within the parent and baby wellbeing sector. It gives those with no experience, the qualification to create their own parent and baby play business or service. Upon completion you will hold a Diploma in Infant Developmental Play 0-1yrs and with insurance in place can practice as an OT approved Developmental Play Practitioner.
